U-BOATS MASTERED AT LAST

British War Expert Today Tells Associated Press.

Mastery of Undersea Pirates Offsets Any Unsatisfactory Military or Political Situation.

New York, November 15.—Declaring that the submarine has been defeated and that its subjugation is the most momentous event since the United States declared war, Arthur Pollen, noted British war expert, today told the Associated Press that in his opinion this offsets anything unsatisfactory in the military or political situation in Europe.

"Six months ago," said Mr. Pollen, "shipping was being destroyed at the rate of 9,000,000 tons per year. Had this gone on the Germans would have had the right to expect military victory. But in the first fortnight of November the rate had fallen to about 1,000,000 tons a year."

Mr. Pollen said that with present facilities for ship building, the loss could be replaced by the allies in 8 weeks and there seemed little chance of the allies over-seas communication lines being cut.

UNCERTAINTY ON CHANGES IN MINISTRY

(Associated Press Cable)
Paris, November 15.—The situation growing out of the resignation of the Poincare ministry is as yet most indefinite. The outstanding fact which is a new feature of the ministerial crisis is the grouping of the parties of the Left—the unified socialist, socialist radicals and socialist Republicans.

This action was taken on the initiative of the unified socialists with the view to common action in the solution of the crisis. The Figaro says the move is intended as "organization of a barrage fire against Clemenceau."

M. Clemenceau is still the favorite for the premiership with even betting that the former premier will be appointed.

Paris, November 15.—Former Premier Clemenceau has agreed to form a new cabinet.

GERMAN'S CHECKED

Rome, November 15.—The Italians have defeated renewed efforts of the Germans to cross the Piave. Those of the enemy who forced a crossing to two points are being held in check, the war office announced today.

OFFICERS OF U. S. DESTROYERS

OFFICERS OF U.S.S. CASSIN.

Admiral Sims in his despatch describing the details of the torpedoing of the U. S. S. Cassin highly commended the ship's company for their action when the ship was hit. There was no confusion, every man remaining at his battle station. Though damaged the destroyer searched for the U-boat which had attacked her.

WELCOME TO CONGRESSMEN BY POINCARE

Party Will Visit Belgian Front on Way to England.

(By Associated Press Cable)
Paris, November 15.—President Poincare today welcomed the delegation of American congressmen to France in behalf of the nation and spoke of the cordial relations between the two countries. He asked the congressmen to convey his respects to President Wilson. The party then visited the Chamber of Deputies where speaker Deschanel received them. The speaker said that the ministerial crisis was a kind of family affair and did not affect France's attitude toward the war.

The party will visit the Belgian front on its way to England.

VILLA FORCES HAVE CONTROL IN OJIANAGA

Wholesale Executions Expected in a Few Days Now.

(By Associated Press Dispatch)
Presidio, Texas, November 15.—Francisco Villa's forces are today in possession of the much stricken town of Ojia-naga having captured it last night after a two-hours battle with the federal troops who finally fled to the American side and surrendered to United States troops.

FIRST INSTALLMENT

(By Associated Press Dispatch)
Washington, November 15.—The first regular installment payment on the second Liberty Bonds, 18 per cent on the face value, fell due today at the treasury and Federal Reserve banks.

of the Mexican federal troops said the fighting was hand to hand in the streets of Ojia-naga and that many on both sides were killed.

Wholesale executions were expected to occur today when the Villa commanders will wreak vengeance upon the enemy prisoners.

"WHITE WAY" TO BE DARK NOW TO SAVE FUEL

(By Associated Press Dispatch)

Washington, November 15.—America's "white ways" will be darkened early tonight. Business thoroughfares in many cities which have blazed with white lights will lapse into comparative gloom at eleven o'clock tonight in compliance with orders of the Fuel Administration, restricting electric display advertising, using power generated from coal, to the hours between 7:45 and 11 o'clock p. m.

CONGRATULATIONS

(By Associated Press Cable)
Stockholm, Nov. 15.—The German minority socialist executive committee has sent the local newspapers of the Russian Bolsheviks a telegram for transmission to Petrograd, congratulating the Bolsheviks on their "seizure of political power."

The telegram expressed the hope that the Bolsheviks will succeed in forcing a peace without annexations.

PETROGRAD IN FLAMES

(By Associated Press Cable)
London, November 15.—According to press reports from Stockholm travelers, who arrived yesterday in Haparanda, Sweden, from Finland, say rumors are current there that Petrograd is in flames.

"Y" DRIVE HALF WAY TO GOAL

Approximately \$13,000,000 of the Minimum Set Is Subscribed.

Middle West States Close Second in Race of Sections.

(By Associated Press Dispatch)

New York, November 15.—Approximately \$13,000,000, more than a third of the \$35,000,000 designated as the minimum amount to be raised throughout the country for the Y. M. C. A. war fund, has already been subscribed, it was announced here by the war work council today.

Returns from the six districts into which the country has been divided show the eastern department including N. Y. and eastern seaboard states leads with more than five million dollars.

The central department, comprising Illinois and middlewestern states is a close second with \$4,800,000. New York leads the states and Ohio is second.

WARNING IS ISSUED

(By Associated Press Dispatch)

Columbus, O., November 15.—A smallpox warning was issued today by State Health Commissioner, A. W. Freeman. The disease is increasing according to Dr. Freeman who pointed out the danger of its growth to a point where in industrial centers it might hamper munitions productions.

Statistics for October just compiled by the Health department put the total number of cases at 416 as compared with 155 in October, 1916 and 92 in October in 1915.

Revised Report from General Pershing on German Raid of November 3rd Also Received

Number of Killed Put at Three and Wounded at Eleven.

Dayton, Kentucky, Man Among the Wounded.

American Shells Have Been Fired Into German Lines Doubtless Exacting Toll for Latest Raid.

(By Associated Press Cable)

With the American Army in France, November 14.—A number of American soldiers have been killed or wounded in the recent shelling of the American trenches by the Germans. One shell which dropped into a trench caused several casualties.

The American artillery fire has been heavy recently, and there is good reason to believe that it has accounted for a considerable number of the enemy.

NO LIST RECEIVED

(By Associated Press Dispatch)

Washington, November 15.—No casualty list of the American troops under German shell fire had reached the war department today.

REVISED REPORT

(By Associated Press Dispatch)

Washington, November 15.—A revised report from General Pershing today on the German raid on American trenches Nov. 3rd puts the killed at three, the wounded at 11 and the missing at 11.

The first report was three killed, five wounded and 12 missing.

First Lieut. Wm. H. McLaughlin, is added to the list of wounded. Private William P. Grigsby, of Louisville, Ky., previously reported a prisoner in the hands of the Germans is among the wounded also.

The list of three killed is unchanged but the following others are added to the wounded: Private Lewis A. Deffer, Sullivan, Ind.; Private Paul W. Fann, of Saronia, Wis.; Private Geo. Wesley, of Dayton, Ky.; Private Lester C. Smith, of Concord, N. C.

The following are added to the list of missing and probably captured: Private Clyde I. Grimsley, Stockton, Kans.; Private Hoyt D. Decker, of Vincennes, Indiana.

The casualty reported as Private Harry R. Langham, should be Private Harry R. Laughman of Chicago.

SENATORS ON TOUR IN ZONE OF FIGHTING

(Associated Press Cable)

With the American Army in France, November 15.—Senator William S. Kenyon, of Iowa, and Senator John D. Kendrick, of Wyoming arrived at headquarters today on their tour of the military zone. They took dinner with Gen. Pershing and his staff and inspected some troops.

Tomorrow the senators will visit the headquarters division and then will have an opportunity to talk with officers and men who have returned from the trenches.

PROBERS CONTINUE

(By Associated Press Dispatch)

Cincinnati, November 15.—Twelve per cent of 35 patients at Longview examined by a medical committee were found suffering of bruises. This was the initial result of the first general investigation of that institution that has ever been made.

Judge Nippert of the Criminal court under whose direction examination is being made, thinks conditions already revealed warrant the most extensive investigation.

Stories of every variety alleging neglect or brutality are still pouring in. The Judge has been advised that there is a policy of enforced reticence at the institution.

Coroner Bauer as chairman of the Longview medical investigation committee today asked the committee be enlarged so as to complete the work as speedily as possible.

NEAR CRISIS

(By Associated Press Cable)

London, November 15.—The proposed new inter-allied war council has provoked a near crisis in British politics.

Challenged in the house of commons yesterday to explain his Paris speech on the needs of such a council, Premier Lloyd George read the terms of the agreement with which he declared made it clear that council was merely advisory.

Formal debate on interpollation will begin in the house next Monday. Negotiations for the formation of a new French cabinet are proceeding.

FORMER MINISTER

(By Associated Press Dispatch)

Washington, November 15.—John W. Foster, former minister to China, dean of the American diplomatic corps and father-in-law of Secretary Lansing, died this morning after a long illness.

He at one time was Secretary of State. The immediate cause of the diplomat's death was asthmatic trouble, although his advanced years and failing health had given his family concern for more than a year.

ITALIAN LINE REPELS BLOWS OF INVADERS

Berlin Lays no Claim To Further Advances.

Indications in today's official news from the Italian front are that the Italian line is still holding on the Piave and on the critical Trentino front while the straightening out process is being continued along the salient between the upper Piave and the Sugana valley.

Berlin's statement reports no change along the lower Piave where the Italian reports have shown repeated attempts to the Teutons to pierce the river line and compel its abandonment and the consequent loss of Venice by the Italians.

The Rome statement throws a still more favorable light on the situation from the entente viewpoint. The frustration of new attempts to cross the Piave is reported, while the small parties which previously had crossed have been held virtually in their tracks.

Berlin lays no claim to further advances in the Trentino, where the Italians are holding the hill region against the drive aimed at the Venetian plain to outflank the Piave line.

Although Petrograd has not been in communication with the Nystad cable station in Finland for several days, reports from Scandinavian perils that Premier Kerensky has gained control of the capital. Reports come also from Sweden that the Bolsheviks maintain their hold on Petrograd.

2000 KILLED MOSCOW RIOTS

(Associated Press Cable)

London, November 15.—Two thousand persons have been killed in street fighting in Moscow up to Noon Tuesday, according to reports brought by travelers arriving at the Swedish frontier and forwarded in press dispatches from Stockholm.

In Kiev and various other towns anarchy prevails to an astonishing degree accompanied by mob violence against Jews, these reports say.

An agreement is said to have been reached at Moscow among the socialist parties to form a coalition government including some Bolsheviks.

SLEUTHS NAB

(By Associated Press Dispatch)

Des Moines, Iowa, November 15.—Elmer Dwiggins, manager of the New York Agency of the Bankers Life Co. of Des Moines, was arrested today at Montgomery Alabama on a federal warrant charging him with using the mails to defraud investors in Liberty Bonds.

New York, November 15.—Elmer Dwiggins, arrested at Montgomery, Alabama, is declared to have sold many thousands of dollars worth of bonds here during the second liberty loan campaign on the "dollar down, dollar a week plan" directing his operation through the so-called "Liberty Loan Extension Club."

Dwiggins is said to have been the sole promoter and director of the club.

ONLY \$307 IS REPORTED FOR FIRST DAY OUT

Necessity of Hard Work Is Realized by Men Back of Y. M. C. A. War Fund Work—Most Citizens Aware of Gravity of War Situation and Are Ready to Do Their Bit.

Because of the inactivity of a large number of the workers in the Y. M. C. A. war fund campaign in this county, on the first day of the drive, the amount of funds reported at the first meeting Wednesday night was only \$307, and the necessity of hard work on the part of each individual worker was made plain to all, so that when they departed from the meeting they were aware that every effort must be bent toward the great work before them.

Reports made at the meeting indicate that most of the citizens are awake to the absolute necessity of making the campaign a success for two outstanding reasons; first—because of the need of every dollar of the \$10,000 which must be raised in this county to carry on the work among the men in the training camps and at the front, making life more bearable and proving to the men that their efforts and sacrifices are appreciated by the ones back home for whom they are fighting; second—because Fayette county citizens must maintain the historical patriotism of Old Fayette, because in years to come the dishonor of having failed to do her part would be great if even one case of neglect of her plain duty should be registered against her.

Fayette county citizens are beginning to realize as never before that the war is on in dreadful earnest, and that the time has come to give, to sacrifice, and to aid in every way possible to prevent the German hordes from winning the war and exacting an indemnity from America, the like of which the world has never known or little dreamed.

The workers in the campaign started out Thursday morning with an increased determination to do their part, believing that the citizens will do their nobly in giving to the war work fund of the Y. M. C. A., knowing that every dollar will be applied where it will do the most good.

Citizens are urged to send their offering to the committee or to give it to any banker, at once.

Tiffin, O., Nov. 15.—Samuel Brenc, 65, well known Soloto township farmer, was killed in a runaway accident. His body was found in a woods near Tiffin.

HUNTERS BUSY FIRST DAY OF RABBIT SEASON

Bang! Bang! Bang! This is what ushered in Thursday morning, the noise beginning in all parts of the county almost with dawn and has been continuing throughout the day. And no man is allowed to kill or wound more than ten rabbits in a single day.

For several days past the county and township clerks have been busy issuing hunters licenses, and local dealers have been besieged with calls for ammunition for the opening day of the rabbit law.

Automobile load after automobile load of local citizens departed early in the morning for some spot in this or adjoining counties, where they had arranged to hunt, and the incessant bang! bang! of the shot guns, coming from various parts of the county, are indication that Bre'er Rabbit is suffering from the effects of the "big drive."

Reports indicate that not in recent years has the number of rabbits been so great as this year, and on many farms the rabbits were becoming so numerous that killing them off was deemed the only way of saving fruit trees and preventing other damage.

It is expected that the average experienced hunter will have no difficulty in bagging his half score of rabbits on the opening day.

A careful watch will be kept by game wardens and members of the Fish and Game Protective Association to prevent illegal killing, or the slaughter of more than the ten rabbits in a single day.

LEAD COINS MAKE APPEARANCE HERE

Someone in this city is courting serious trouble by passing counterfeit five cent pieces bearing the date of 1901.

Several of these spurious coins, representing the crudest kind of work, have been passed at local stores during the past week or two, and the matter is being investigated with a view of establishing the identity of the fellow who is courting a term in federal prison. The coins are made of lead.

It may be of interest to know that anyone who has a spurious coin in his possession is liable to prosecution for violation of the federal law, and the crime is almost as grave as that of the man who passes the counterfeit coin.

PATRIOTIC MEETING OF THE I. O. O. F.

VOLUNTEERS ARE WANTED TO HELP THE LOCAL BOARD

The Ohio Branch of the Council of National Defense has issued a call for volunteers to aid the Local Board in the task of compiling the data in connection with the registration by classes of all the drafted men in the county.

Mayor John Oster has received a letter from the Defense Board urging him to call attention of local citizens to the necessity of such work. The Local Board, it should be understood, works and has been working without pay.

The communication to Mayor Oster says in part:

"The labor required would vary according to size of the district, and should be performed on evenings at the Local Board office; the number of person that could be used would be from five to fifteen. Any educated person able to study directions and tabulate figures will be most useful."

Anyone who can assist in the work should notify the Local Board.

ODD REQUESTS ARE MADE FOR TAGS

By Associated Press Dispatch. Columbus, O., November 15.—One Ohio farmer has asked State Automobile Registrar McCurdy to reserve for his 1918 auto license tag the number corresponding to the pedigree of his champion Poland China hog. Many have asked for numbers corresponding to the year when they were born. Carmi A. Thompson, of Cleveland, former secretary of state, requested "Lucky No. 7." Former Secretary of State Charles Graves requested "No. 1" and will get it. There will be no dearth of tags on January 1 as there was a year ago, McCurdy says.

Social and Personal

Mrs. Carrie Cline Deere gave pleasant entertainment to "Thrice Five Knitters" club Thursday afternoon.

A dainty luncheon was served. The additional guests included: Mrs. J. A. Edge, Mrs. Joe Mark, Mrs. Edwin Weaver and Miss Dell Lanum.

In fulfillment of the promise of the president, Miss Margaret McDonald two weeks ago, the Junior Cecilians were given a rare treat at their meeting Wednesday evening, when Mr. James Kneisley gave a most delightful concert to the members of the club and a few privileged guests.

The entire evening was devoted to vocal study. Miss Lillian English, a Junior Cecilia, opened the program with a paper on "Famous Violinists." Miss English proved equal to the task of handling the vast material to be gathered on the subject. The paper was both interesting and instructive.

Mr. Kneisley followed with a talk on the structure of the violin and the famous makers of the instrument. He then rendered a most pleasing program. With true artistic temperament he varied the program from heavy music to lighter music, keeping his audience intensely interested throughout. He gave an interpretation of each number played and the history of its composition. The requested encores accorded him proved how thoroughly his selections were enjoyed. The Bach and Mendelssohn numbers were two general favorites from the following program rendered:

Air Variations De Beriot
Celebrated Air Bach
Humoresque Dvorak
The Bee Schubert
Andante Mendelssohn
Overtures Wieniawski
Andante and Scherzo Capriccioso

F. David
Miss Teeters did admirable work as accompanist. She met the heavy demands of the evening's program with perfect ease and won a large share of applause.

Miss McDonald expressed the appreciation of the Juniors for one of the most delightful programs the club has enjoyed.

Absent members are reminded that the next program will be given Monday, November 26th the regular meeting day, this week's meeting having been changed to enable Mr. Kneisley to give the concert.

Much social interest attaches to the announcement of the marriage of Miss Marie Louise Ballard and Mr. John Warden Holman, which was solemnized at the "Little Church around the Corner" in New York on Wednesday afternoon.

DEATH THE SEQUENCE TO SERIOUS ACCIDENT

Mrs. Elizabeth Catherine Snider, widow of the late Isaac Snider, passed away at the home of her daughter, Mrs. Minnie Flee, on Van Deman Avenue, Millwood, Wednesday night at half past eight o'clock.

Just a week ago Mrs. Snider suffered a fractured skull when knocked down by a bicycle while crossing the street.

There was practically no hope from the first and the unfortunate accident leading to her death only intensifies the sorrow in the home and arouses the deepest sympathy of the community. Mrs. Snider was one of those unselfish, Christain women who give liberally of their helpfulness to all who need it and most of all were her efforts expended in the home and for the welfare of her children. Her affection was returned in full measure by seven surviving children, Albert, Walter, Mrs. Minnie Flee, Blanche and Charles Snider, of this city, Orland of Wilmington, and Henry of Dayton. Mr. Snider died six years ago.

Funeral services will be held at the home Friday afternoon at 2 o'clock Rev. Grove officiating. Burial will be made in the family lot of the Washington cemetery.

OIL CONCERN PUT OUT OF BUSINESS BY DEPUTY SEALER

How a Cleveland oil concern was forced out of business in Ohio by short measures discovered by Deputy Sealer of Weights and Measures, N. B. Hall of this Co., has just come to light, the discovery is said to be one of the most important made by any Deputy Sealer in the state this year.

Several weeks ago Deputy Sealer Hall was summoned to Bloomington by C. T. Lynch, who had received a drum of oil from the Cleveland firm, and believed the drum contained less oil than he purchased.

The drum was sold to Mr. Lynch as containing 35 gallons of automobile cylinder oil, and upon examination by Deputy Sealer Hall it was found the drum was less than 30 gallons capacity.

Deputy Hall called a representative from the State Sealer's office and he substantiated the findings of Deputy Hall.

The oil company is alleged to have sold the oil at a comparatively low price per gallon, claiming that a car load of the oil had been received and the customer to whom assigned had declined it, and it was for this reason that the price was low.

The State Sealer found that such was not the case; that the firm had a distributing branch in Columbus, and had sold 1300 drums of the oil, each drum short in measure by over five gallons.

The State Sealer's office has notified Mr. Hall that not only was the firm forced to pay out \$2 for each drum sold, a total of \$2600, but their license was revoked in Ohio, and they transferred their field of operations to Kentucky and Indiana, both of which states have been notified of the change.

HOG STEALING CASE UP TODAY--UNUSUAL FEATURE OF CASE

With some 25 witnesses subpoenaed for the trial of Ohio against Reynolds Davis, charge with stealing hogs, the trial was started Thursday morning before Judge Carpenter and the jury. The accused is represented by Maddox and Maddox.

A decidedly unusual feature of the case is that three men indicted with Davis, are not here to face the charges. One of the men died several months ago, following an operation, and the other two, Forest Johnson and Harley Self, as members of Company M, are now in France, leaving Reynolds Davis the only one of the quartette to face the music.

The four men were arrested following charges filed by Jerome Taylor, and were held to the grand jury, later being indicted.

It is alleged that a number of hogs had been stolen from farmers near this city, and widespread interest attaches to the case.

THE ARMY Y. M. C. A.

(THE RED TRIANGLE)

NOW COMES BEFORE THE PEOPLE OF AMERICA IN A GREAT DRIVE FOR

\$35,000,000.00

To be Raised This Week. Ohio's Share is \$2,500,000.

Fayette County's Share, \$10,000

THIS IS ONE OF THE MOST IMPERATIVE CALLS OF ALL WAR PREPARATIONS.

THE FAYETTE COUNTY COMMITTEE IS DEPENDING ON YOU TO DO YOUR FULL SHARE. THE INTENSIVE CAMPAIGN IS TO BE PUT ON THIS WEEK.

In contributing to the Red Triangle you are doing through the properly constituted authorities the kind of work for your boy or your neighbor's boy which you would be eager to do if you were in personal touch with him. The Red Triangle is expecting to spend ten dollars per man. How many men will you keep happy, contented, straight, clean and well?

General Pershing says: "The work now being done by the Y. M. C. A. Red Triangle for the comfort and entertainment of our soldiers in France is very important. As an organization its moral influence is highly beneficial."

Ex-President Taft says: "Are we going to be backward in giving our men the nearest thing they can get to a Christian home on the firing line?"

Major General J. Franklin Bell says: "I regard the Y. M. C. A. Red Triangle as being as necessary as the Red Cross."

Ex-President Roosevelt says: "What the Y. M. C. A. Red Triangle has been doing in Europe is truly remarkable. Now our citizens should aid them to do work of the same type for our own troops."

Lord Northcliff says: "We could not win this war without the help of the Y. M. C. A."

President Wilson's Executive Order states: "The results obtained are so beneficial and bear such a direct relation to efficiency . . . that in order to unify the civilian betterment activities in the Army and to further the work of the organization . . . official recognition is hereby given the Young Men's Christian Association as a valuable adjunct and asset to the service."

To Know the Red Triangle Work is to Endorse and Help it

Your Executive Committee and Team Captains ask you to come to their support wholeheartedly. If it means sacrifice, remember the sacrifice others are making—they are giving their lives. This is an age of sacrifice. Fayette County has done her full share in the Red Cross, Liberty Bond and all other war emergency campaigns. Let us do no less in this.

DON'T WAIT TO BE "CALLED ON"

Not much time remains now of the allotted period—one week—within which the people of the nation are to subscribe \$35,000,000 for the needs of the Y. M. C. A. in the army service.

Each county in the United States has been given a specified sum to contribute. Fayette County's quota is only \$10,000 and it has not been subscribed yet, chiefly because the public spirited men, who, volunteer to gather up these subscriptions, have had so many things to look after that they couldn't "get around."

Fayette County can't be left behind when the whole nation goes "over the top" with our boys.

Don't wait for any one to call—because if you do you may be left out.

Rush your contribution by letter or by telephone to the Y. M. C. A. at once.

The time is short—

Cincinnati Once More

The corroding influences of control by an old fashioned political gang and the wet interests are slowly eating away Cincinnati's stamina.

There is no doubt about that but at the same time, while we have no excuse to offer for Cincinnati's blind and insistent adherence to a cause which is placed under the ban by progressive and patriotic citizens, we do not believe the wild abuses of the Cincinnati electorate and charges of corruption in the election, with no statement of fact supporting them, should be encouraged.

For Cincinnati's stubborn stand on the wet and dry question, for her steadfast refusal to lift herself out of the rut of gang politics, there can be no excuse offered.

Criticism on that score is supported by cold facts but, until there is something tangible in the way of facts, upon which to predicate them, we believe that the charges of corrupt voting or manipulation of the figures in the final results should stop.

Cincinnati will suffer enough, in the loss of the respect of Ohio people for her vote without charging her voters or her election officers with crime.

A small part of the energy wasted in written and printed charges would, if directed to getting at the facts, soon disclose whether anything is wrong in Cincinnati.

Until that time comes let's give old decadent Cincinnati the benefit of the doubt.

Let's be fair about it. This is no time to indulge in abuse no matter how wrong we think Cincinnati is on this particular issue.

Giving of Our Plenty

America of her prodigal plenty must give again and again to the cause of humanity.

Staggering sums have been borrowed by the nation to prosecute the war, to finance our own war expenses and to assist our allies in bearing the tremendous expenses they have been, and are yet called upon to meet.

The American people have responded splendidly to every call, and the calls have been heavy, too. But why not, the need is vital and no people are more interested in the triumph of democracy over autocracy than the American people, and no people on earth are better able to loan to the government to prosecute the war and to give to the many necessary organizations to aid and comfort the soldiers and care for the wounded, than the American people.

Why shouldn't we give, and give again, and keep on giving of our plenty.

Those who are prevented, by age or physical disability, from bearing arms in the defense of the nation can work and save and give to make life more pleasant for those in actual hard service.

It's a selfish man who objects to the call for money in these times. Every man should be endeavoring to find some place where he can contribute of his plenty to assist the great cause.

Men and women are giving their lives for the nation and for the preservation of its ideals. Millions have left their homes and entered upon the grim work of war. The folks at home can do no less, with honor to themselves, than to support them by voluntary contribution to every good cause which will help in ending it all sooner.

Giving is such a little thing, in comparison to the great sacrifices made every day and every hour, that we wonder how any man can be mistaken as to his real desire.

When we loan our money to our country we loan it to ourselves, and when we give we give to ourselves. We only give a part, and it will return a hundred fold increased.

Our endeavor should be to seek out the channels where we can pour in our dollars. There is no need for any man to misunderstand conditions, because this is everyone's war who believes in freedom, justice and humanity.

HOW TO HELP THE KAISER

One can help the Kaiser very much in little ways,—

Accept these few suggestions to aid his troubled days.

Eat a hearty breakfast, the sort you always do.

Take three lumps of sugar instead of merely two.

Glance through the morning papers, ignoring those appeals

That follow, earnest mendicants, on one another's heels.

Why should one spoil a pleasant day with things that touch the heart

Since every penny one withholds helps Wilhelm do his part?—

But read instead the pleasant bits, advertisements that shine

With lace, furs and pretty things—and choose your place to dine:

Put in an easy afternoon upon the Avenue.

A matinee, a cup of tea,—these help they really do:—

And when the lights of evening burn and you have wine and dined

Go hear a German opera that elevates the mind:

And once at home sit down in peace before your glowing log

And knit a cunning sweater for your darling little dog.

So do your bit for Germany in these unfriendly days,—

One can help the Kaiser very much in little ways.

SIBERIA PROCLAIMS CZAR EMPEROR

(By American Press)

London, Nov. 15.—Advices from Tornea, Finland, say that Siberia has declared its independence and proclaimed Emperor Nicholas as emperor. Cossacks have occupied Kiev.

Although dispatches sent out by the Finnish telegram bureau assert that Premier Kerensky again is in control in Petrograd, other reports are to the effect that he has set up his government in Moscow and that fighting still continues in the capital.

The cable station at Nystad, Finland, reports that no response could be obtained from Petrograd to its signals. It is presumed that the Petrograd station is occupied by military forces.

A Stockholm dispatch says that Premier Kerensky has entered Petrograd. The majority, or Maximalist, troops have joined the premier, the dispatch adds.

German press reports, however, continue to insist that the Maximalists have been victorious, that Kerensky's army was routed and that the premier is a fugitive. No news has been received directly from Petrograd since Monday, when the Bolsheviks, then in control of the wireless station, announced their triumph at Tsarskoe-Selo.

Travelers arriving from Petrograd the Finnish telegram bureau reports, say that when they left the capital there was fighting in the streets between the Bolsheviks and the populace. The Petrograd garrison was reported to be deserting the Bolsheviks and the allied embassies were said to have got in touch with Premier Kerensky. The people of Petrograd, the travelers said, were turning down the Bolshevik proclamation and hooting their leaders on the streets.

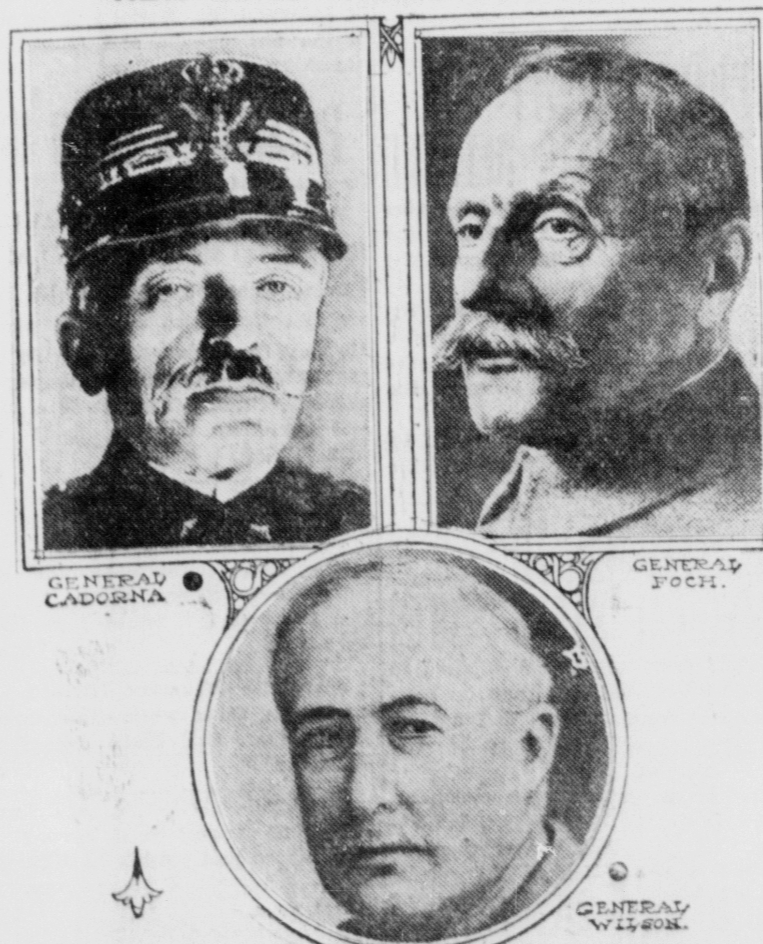

30,000,000 POUNDS COLD STORAGE POULTRY TO BE PUT ON MARKET

(By American Press)

Lansing, Mich., Nov. 15.—Thirty one million pounds of cold storage poultry are expected to be dumped on the Thanksgiving and Christmas markets as the result of action of the United States food administration, of which notice was received by George A. Prescott, administrator for Michigan. Of this amount, 6,000,000 pounds were of turkey. Practically all of it has been packed away since the fall of 1916. Cold storage warehouse men have been requested by the national food administration to notify the owners that it is illegal to hold the birds until the 1918 season.

THANKSGIVING PROCLAMATION BY GOVERNOR COX

By Associated Press Dispatch.
Columbus, O., November 15.—The following Thanksgiving Day proclamation was issued today by Governor James M. Cox of Ohio:

"Our fathers established the custom of a concerted giving of thanks to the Almighty, because they held firmly to the belief that He rules the things of earth, and that both blessings and reverses are dispensed by an all-wise hand for a purpose.

"From the present unhappy events of the world, and our part in them, there is much for reflection. The observation that institutions born of progress are creaking at their very base because of a lofty idealism may seem at first thought to be at fault, still it cannot be denied that the force behind the war is a protest against injustice. To hold ourselves away from this movement would be an abandonment of the principles that established and maintained our republic.

"The finite mind may wonder why it is, but no advance in the conditions of man or nations is made without sacrifice. There would be no nobility to an ideal if it did not arouse the spirit to shake itself from the materialistic view and abandon every thought save for the common good. Our fathers passed through the experience of threatened disaster to plant human freedom on soil where God intended it should grow into an inspiration to the hopes of others.

"This generation has lived in the full fruits of plenty and contentment. An unbroken peace and prosperity has developed the hardpan of indifference. We are to be enriched in character by the awakened realization that what we have under our government is worth sacrificing for, and that we will exalt humanity by giving of our resource and strength in order that other races may know and enjoy the blessings common to us.

"Our harvests are abundant—more than our needs, if we mark the difference between extravagant self-indulgence and reasonable necessity. We have been spared from pestilence. We have the substance and the purpose to help make the world free from the germ of autocratic denial of human rights. Age and experience point to the lessons and noble unselfishness of the past, and youth resolutely comes forward to the task of the hour.

"Our belief in God grows and we are grateful that in time of trial we are an increasingly reverent people. Our virtues are aroused, and a pure-hearted citizenship will make a stouter-hearted nation.

"Therefore in the better view, we should lift our hearts to a humble acknowledgement of our debt. In compliance with law and custom and upon the recommendation of the President of the United States, I, James M. Cox, governor of the State of Ohio, respectfully urge that the people of the state observe Thursday, November 29th as Thanksgiving Day in their homes, in public assemblies and places of worship. Let families come together wherever possible, and let thanks ascend to the Giver of all gifts and blessings, with the prayer that we may continue unselfishly and wholeheartedly to render the greatest service to mankind."

\$200,000 PRODUCTION AT PALACE THEATER

"When a Man Sees Red," the special \$200,000 picture de luxe in which William Farnum last stars, was shown to big houses at the Palace Wednesday and makes its last screen appearance in Washington tonight.

It is a magnificent picture adaptation of Larry Evans' famous South Sea Island story of "The Painted Lady"—a play of such intense dramatic interest that even without its wonderful stage settings and picturesque beauty of ocean and South Sea Island scenes, is sufficient to hold an audience spell-bound.

Every moment thrills in interest, working up to a climax that could hardly be rivaled in dramatic intensity.

William Farnum finds great opportunity for his talents in the leading role of "Larry" Smith, a young seaman, joyously coming back to San Francisco from a voyage to find his idolized young sister dead from the brutal abduction of Capt. Sutton, of

BRITISH ADMIRAL WITH STAFF VISITS HARVARD

VICE-AD. BROWNING.

Vice-Admiral Montague E. Browning (right), of His Majesty's Navy, and Lieutenant Ayer, U. S. N., taking the salute as they started on their inspection of the students at the Naval Radio School at Harvard.

The Admiral is commander of Great Britain's fleet in these waters. It will be noted that one arm of his coat hangs loose. His left arm was taken off in the Battle of Jutland.

the Albatross, off duty for a few hours, and his mother prostrated with grief and dying soon after his return. Heart broken, Larry once more takes to the sea and by strange coincidence, sails as first mate to this same degraded captain, in ignorance of his identity.

Through Matt Logan, second mate of the schooner, who sees and recognizes the picture of Larry's sister in his Bible, ultimately the young sailor discovers Sutton's villainy and revenge his sister in the terrible punishment he gives the wicked skipper.

But before the climax of this great fight, which out classes all of Farnum's former successes in the role of realistic fighter, there are all manner of thrilling experiences on the lone island in the South Sea, where Larry meets the "Painted Lady", wearied of frivolity, and her party of millionaire friends.

Jewel Carmen, as Violet Worth, the "Painted Lady" as a wonderful "opposite" and her beauty and appealingness captivated her audience.

Larry's love for her develops her better nature, but she is dragged away on the party's yacht to be the victim of the shipwreck which casts her on the beach and at the mercy of the degraded Capt. Sutton.

The storm and ship wreck, with an actual ship breaking to pieces as the ocean lashes its fury against the rocky coast is a masterpiece of photographic art, and the audience hardly breathes during the scene which follows. Capt. Sutton, infuriated by the repulse of the Painted Lady takes her to the island to auction her off to Chinese of Samoans and as he swings his helpless captive in his wild rage meets his doom at the hands of Farnum.

The play ends happily, making an effective afterglow to the strenuous scenes. The admirable characterization of the entire cast makes it a finished production from the historic standpoint.

MINISTERS ALONE CANNOT WIN BATTLE

By Associated Press Dispatch.
Cincinnati, O., Nov. 15.—"It is as hopeless for the church to rely upon ministers to win victories for the Kingdom of God, as it is for the country to expect generals and captains to win victories without private soldiers."

This was the opinion of Dr. Eric N. North, associate editor of Adult Class Publications, who advocated a definite curriculum of Bible class study, in an address today before the Adult Bible Class convention, which opened a two-day session at Norwood a suburb.

"If Christians at the lathe and cash register and kitchen door," he continued, "were as ready to spread Christianity, as are Arabian business men to spread Mohammedanism, then the churches would be thronged."

The convention is the third annual gathering held under the auspices of the Ohio Sunday School Association and is well attended by delegates from all parts of the state. Eleven separate sessions have been crowded into the two-day convention.

Tomorrow evening's session will be devoted entirely to the consideration of a war program.

CHILD RETURNED MAN CERTIFIED OVER FOR SERVICE

The discharge granted to George Washington Kelly, who has been living near Hillsboro for sometime, has been revoked by the Local Board of this county, and Kelly has been certified over for military service.

This action was the result of some investigation work on the part of the Local Branch of the United States Secret Service, of which there are five or six members in this city and county.

According to information given out at the office of the Local Board Kelly claimed exemption on the ground of having a child to support. The investigation, it is said, disclosed that the man and his former wife, who now resides at Milledgeville, had been legally separated and the custody of the child awarded to the mother.

It is claimed that the man obtained possession of the child about the time he was to appear for examination for military service. The mother, it is claimed, insists that he kidnaped the child and has had it with him for sometime.

The secret service agents this week went after the man and brought him and the child to this city. The child was turned over to the mother and the man was certified over for service, to go when his turn comes.

NEW RULING GIVEN IN NON-SUPPORT CASES

By Associated Press Dispatch.
Columbus, O., November 14.—Unless the parentage is admitted, the juvenile court is without authority to act in cases in which an arrest is made for failure to support an illegitimate child, according to a ruling made this week by the Ohio Supreme Court.

The Court reversed the findings of the Cuyahoga county Courts in the case of Fred Creisar against the state.

FIRE CHIEF KILLED

Morgantown, W. Va., Nov. 15.—James Kennedy, chief of the fire department, was instantly killed and Clyde Vitt, a policeman, was fatally injured when the walls of a burning business building fell here. The structure, which was one of the town's landmarks, was destroyed with a loss of \$15,000.

I am Making a Small Town Business Pay Because I Know

G. A. Garver, of Garver Bros. Company, General Merchants, Strasburg, Ohio*

I KNOW my sales slips are added correctly. There's only one way of being sure—and that's by adding them on a machine. Human addition means errors, no matter how careful the figuring.

And little errors have shipwrecked many a business.

Soon after it was bought I caught small errors enough to pay for my Burroughs.

I KNOW how much each clerk and each department sells each day. I have to know. Rule-of-thumb averages don't tell which department is paying, or which clerk is an asset—where I'm making my money.

I couldn't get this information every day if I didn't have my Burroughs to get it for me, speedily and accurately.

I KNOW the monthly total of sales and expenses. In other words I know every month exactly how I stand—how much I'm making and how I'm making it.

No man likes to do business blindfolded—but many do, because they hate to wade through a maze of figures to get to the light.

My Burroughs does this for me.

I KNOW how much money I have—how much in the bank, how much on bills receivable—all the time. Most retailers never check up their check-books—I do, and with my Burroughs it's easy.

Since I know my cash income and outgo every day, it's easy to keep track of my bank balance. But this represents only part of my money.

My accounts receivable are a real asset and it's as important to know their total daily as to know my bank balance.

My Burroughs gets me the information in a few minutes.

I KNOW what goods are on my shelves—and this means something in a general store like mine.

With this knowledge, I have very little slow-moving or dead goods piling up on me. Everything moves quickly—and quick turnovers mean big money. I couldn't keep track of my stock without my Burroughs.

I KNOW that my Burroughs Machine is one of the most profitable investments I have made. It's busy all day. It never tires, is always accurate, is always on the job.

I can't tell you all the things we use it for; but my advice to the storekeeper who wants to make his business pay big profits is—get a Burroughs.

98 Burroughs Models

The wide range of Burroughs Models includes a Burroughs for any business—large or small. Consult your banker or telephone book for the address of the nearest of the 98 Burroughs offices in the United States and Canada. Burroughs offices are also maintained in other principal cities of the world.

*The Store of Garver Bros. Company is widely known as "The Biggest Country Store in America." Its interesting history has been told in stories appearing in The Saturday Evening Post and American Magazine. Strasburg, Ohio, in the center of a ring of large cities including Columbus, Canton, Akron and Cleveland, is a hamlet of barely 1,000 population. Yet the Garver Bros. Company in 1916 did a business of more than \$400,000, drawing trade from a wide radius of surrounding country. Garver Bros. Company has been using Burroughs Figuring Machines since 1912.

SGT. MAX G. DICE IS
TRANSFERRED TO GEORGIA

Max G. Dice, who has been with the U. S. Hospital corps at Ft. Logan, Arkansas, has been promoted to the rank of Sergeant and transferred, with eight other Sergeants to the hospital corps of the 17th infantry, stationed at Ft. Oglethorpe, Ga. He writes home in the best of spirits from his new station.

COMMUNICATED BY
UNUSUAL METHOD

While the Columbus pickpockets were confined in the county jail, the sextette communicated frequently, regardless of the fact that the two women were in an upper cell in another part of the jail from where the men were imprisoned, and the windows were fully 18 feet distant.

Sheriff Jones found that by the use of a section of broom handle, with a small piece of elastic from a man's hose supporter attached, a ball of tin-foil to which was attached a string was thrown over a telephone wire some 12 feet from the east side of the jail, and as this wire was attached to the building near the window of the cell occupied by the women, the women hung bedclothing out on the wire, and the ball of tin-foil with string attached could be thrown upon the bedclothing and when the clothing was pulled in the window of the women's cell, the string extended

from window to window. In this manner cigarettes, notes and small articles could be sent back and forth. It probably required days of practice with the elastic "slingshot" before the ball of tin-foil could be shot over the wire. Only a clever crook would have figured out the almost unbelievable way of communication established by the prisoners.

FARM NOTES

DON'T SLAUGHTER BROOD SOWS.

Owing to a falling hog market and the steady price of corn and other feeds, there is a tendency to sell or slaughter brood sows. The owner knows that the present price of pork is high. If he keeps his sows he will be required to use high priced feed.

On the other hand the hog man who sticks to the business through high and low prices is the one who makes the most money. The man who sells now on a falling market, is frequently the man who is tempted to go into the business when hogs are high.

There is a shortage of hogs over the United States as well as in the world at large. From January 1, 1916 to January 1, 1917, the decrease in the United States was 313,000 head. In France the number of hogs has decreased 40 percent.

Pork lends itself more readily than any other meat for use in the army. With the enormous and unusual needs of the men at the front as well as those of our allies the demand will be great and the price satisfactory.

This is a good time to rediscover the

value of farm manure. One ton of manure contains more nitrogen and potash than 500 pounds of 2-8-2 fertilizer. Manure reinforced with acid phosphate is the most effective fertilizer known. The weak point about manure is that there is not enough of it. More of it is needed. More men are needed to preach and to practice the saving of every particle of manure produced on the farm.

A MINIATURE NAVAL
BATTLE IS PENDING
IN MOUNTAIN LAKE

(Associated Press Correspondence)

Koritz, Albania, October 31.—A naval battle between French and German warships is imminent, which when it occurs, will not be recorded in any official communiqué, though it will be in a way, one of the most unique naval engagements of the war.

Lake Ochrida is a large body of fresh water lying a few miles north of here, at the point where Albania, Serbia and Macedonia touch. It is 40 miles long and 20 miles across, with towering mountains running around it. The north end of the lake is held by the Germans, and the south end by the Entente Allies. It has been the scene of the latest hard fighting, when the Entente troops made a forward drive of thirty miles from Pagrodak, at the south end, to Padahoja far up toward the north end. With the Germans holding the north end of the lake, they did not confine their operations to the land. A miniature flotilla soon made its appearance with oil-burning launches about 15 feet long, each mounting one gun forward. This mosquito fleet soon

became a real menace, for it darted to the south end of the lake, at night and bombed the small villages along the south shore, held by the French, Russians and Serbs. The headquarters of General Tarnahoff, of the Russian division operating with General Sarrail, was in one of these villages. The French soon took steps to counteract this menace. A small steel craft, thirty feet long, was brought overland from the French fleet at Saloniki. This mounted two guns, one forward and one aft. With it came a commander and a crew of French sailors. This was soon followed by a second 30-foot boat mounting two guns, with its equipment of officers and crew.

"In bringing the boats from Saloniki," he said, "we took out the engines so that the hulls weighed only three tons. This made reasonably easy going on the canions. There was no mishap, the first boat is launched, with her engine in place and guns mounted, and the second will soon follow. And then," he added with a laugh, "we'll see who will do the bombarding."

ARTHUR COBB FINED

"Arthur Cobb, of Washington C. H., was fined \$25 and costs on a charge of drunkenness and disorderly conduct. The court was informed that Cobb had only been released from the state penitentiary Tuesday morning where he had served a term for manslaughter, and that he threatened to cut a man previous to his arrest Tuesday night."—Springfield Sun.

LLOYD GEORGE ON NEW WAR COUNCIL

(By American Press)

London, Nov. 15.—Resignation of Premier Painleve and his cabinet is regarded here as directly expressive of the French chamber of deputies' opposition to the plan to consolidate all allied power, military and political, under one supreme interallied council. In London the press and public continue their onslaught on the scheme, the fear being expressed that under it civilians might replace military men as strategists.

Painleve's explanation of the purposes of the new scheme of unification failed to appease the deputies. Other purely domestic questions relating to opening up of recent scandals was involved in the chamber's antagonism to the ministry.

The acrimonious comment against such a scheme was mixed with violent assaults on Premier Lloyd-George for his frank speech at the Paris luncheon. Most newspapers, and particularly the Northcliffe publications, expressed fear that the new war council would seek to displace such British commanders as Sir Douglas Haig and General Robertson.

Premier Lloyd-George explained to the house of commons that the interallied council would have no executive power. He said final decision in regard to matters of strategy and the distribution and movement of armies would rest with the several governments of the allies. The question was brought up by former Premier Asquith. The new council, Mr. Lloyd-George said would be charged with the duty of surveying continuously the field of operations as a whole in the light of information derived from all the governments and staffs, and also of coordinating plans and making plans of its own, if necessary for the better conduct of the war.

ORGANIZE TRUCK TRAIN AT CAMP SHERMAN

(By American Press)

Chillicothe, O., Nov. 15.—Organization of the Four Hundred and Eighth motor supply train from picked selective service men from all units at Camp Sherman was practically effected with the order for transfer of 388 men to the train. These men probably will be in overseas service in the next few weeks, the first men to go from Camp Sherman to the front.

Several weeks ago when organization of the motor train was ordered it was announced that it was for immediate overseas service. Volunteers from the state were called for. It was said at that time if not enough men responded the selectives would be called to fill the train. Nearly all the men picked are Ohio men. They expect to be in France very soon.

Preparations are progressing for sending the entire Three Hundred and Thirty-second regiment infantry to Camp Perry for a course in target practice.

RECRUITING WANTED FOR REGULAR ARMY

The Chillicothe Army Recruiting Station wants to secure 120 recruits for the regular army, national army and the national guard before the end of November. Both black and white recruits are acceptable.

The Cincinnati army recruiting district is composed of six sub-districts, one of which is Chillicothe sub-district. The Chillicothe sub-district is composed of the following counties from which the local recruiting office gets its usual quota of men: Ross County, population, 40,069; Fayette 21,744; Vinton, 13,096; Pike, 15,723; Jackson, 20,791; or a total population in the district of 121,423.—Chillicothe Gazette.

BAKER ESTIMATE OF WAR COST TO 1919

(By American Press)

Washington, Nov. 15.—Estimates soon to be submitted by Secretary Baker will cover war costs to the middle of 1919. The close of that year represents the earliest estimate of high army and navy officers as to the end of the war, and many are skeptical of a conclusion by that time. Men who have foreseen a decision by the winter of 1918, now say frankly that the Russian and Italian problems make it appear impossible for any victory before another year.

The outstanding thoughts in interviews obtained are: First, Germany is likely to make a new peace move soon, perhaps secretly; second, a strictly military decision is next to impossible under the present war system on the west front, unless the navies take a daring hand against Heligoland, Wilhelmshaven or Zeebrugge; third, Russia is fully as likely to drop out of the struggle completely as she is to recuperate; fourth, the Italian situation does not affect the general military situation critically.

This Big Aluminum Cereal Cooker

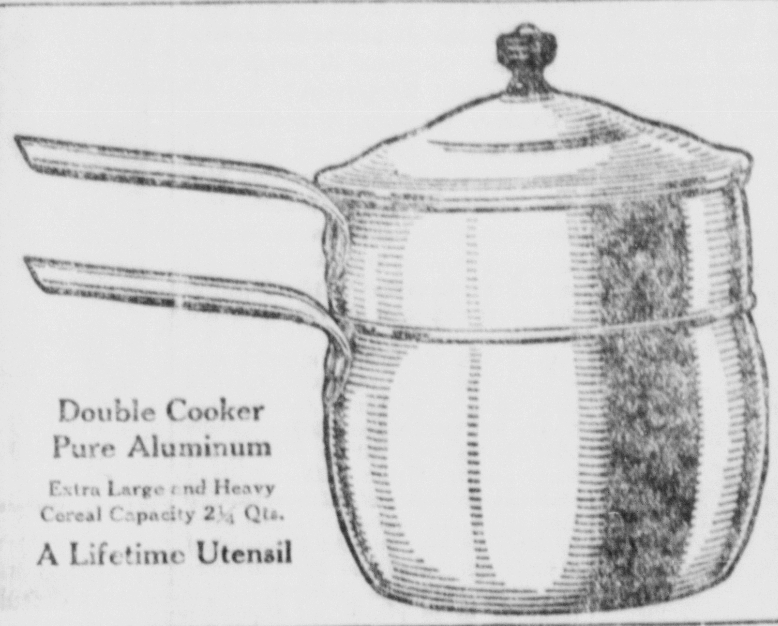

We make this One-Week Offer to Housewives here who have not had this Cooker. The cost of Aluminum has doubled. Cooker prices have enormously advanced. But, in fairness to those who missed it last year, we repeat this Dollar Offer.

Cookers Supplied To a Million Homes

We have supplied Mother's Cookers to a million homes at very little prices. But the cost has advanced until our offer is almost impossible.

But grocers tell us that many housewives missed our former offer. They are using Mother's Oats and Pettijohn's, and they want this Aluminum Cooker. In fairness, they should have it.

So we renew this offer for next week only. It applies only to housewives whom we have not supplied already. It applies only to users of Mother's Oats or Pettijohn's, or both. It means twice as much as this Dollar Offer meant two years ago. Get this cooker next week if you are entitled to it. You owe that to yourself.

Double Cooker
Pure Aluminum
Extra Large and Heavy
Cereal Capacity 2 1/4 Qts.
A Lifetime Utensil

To Rightly Cook Two Famous Dishes

We want every user of Mother's Oats and Pettijohn's to cook these cereals rightly. Right cooking makes them doubly delicious. It keeps the flavor intact. It makes them easy to digest.

This Aluminum Cooker has been made to order to meet exact requirements. It is extra large, so little or much can be cooked in it. It is extra heavy, made to last a lifetime.

This Cooker will next week cost you only \$1, if you send us the trademarks we ask for. This is a costly offer. And we simply want to know, before sending the Cooker, that you are a Mother's Oats or Pettijohn's user.

This Offer One Week Only

Send us two pictures of the Cooker cut from packages of Mother's Oats. Also one trademark (picture of bear) cut from the front of one package of Pettijohn's. Or, if you prefer, send five pictures of the Cooker alone. With the above send \$1 and we will mail the Cooker by parcel post. Your order must be mailed next week. This offer applies to this vicinity only. Address

Mother's Oats, 1708 Railway Exchange, Chicago

Mother's Oats Which Saves You 75%

Measured by food value, Mother's Oats costs one-fourth as much as the average mixed diet. No other dollar you spend for Mother's Oats saves an average of \$3. Oats stand supreme among grain foods, in nutrition and in flavor. They form a complete food, supplying every need. As an energy food their fame is proverbial.

Make this the chief breakfast dish. Meat and eggs cost five and six times as much. Also use Mother's Oats in bread and muffins, pancakes and cookies. No other food is so economical.

Use Mother's Oats because of the matchless flavor. It is made of queen grains only—just the big plump, luscious oats. We get but 10 pounds from a bushel. Yet it costs you no extra price.

Pettijohn's The Laxative Luxury

Pettijohn's Breakfast Food is soft rolled wheat, hiding 25 per cent bran flakes. It is a flavorful dainty of which no one ever tires. And it supplies the needed bran. Bran is Nature's laxative. Everybody needs it. Most folks would feel better if they ate it every day.

Fine foods clog the system. Bran supplies the needed roughage. Every doctor, as you know, urges its use, to avoid the need of drugs.

Try it one week. Note the good spirits which result. Never again will you return to a branless diet.

Pettijohn's Flour is another bran dainty. That is 75 per cent white patent flour and 25 per cent bran flakes. Use like Graham flour in any recipe. With these two products every meal can include some bran-made dainty.

Falls From Tenth Floor.
Cleveland, Nov. 15.—Frank Roberts fell to his death from the tenth floor of the Hippodrome building. His foot slipped while he was removing electric lights from the front of the building.

Wolfe Named Director.
Columbus, Nov. 15.—Directors in districts and states of the war savings campaign, to start through post-offices Dec. 1, were announced at Washington. The director for Ohio is H. P. Wolfe, Columbus.

School Closed; No Coal.
Athens, O., Nov. 15.—One of the model rural school buildings of Ohio university, near Athens, was closed on account of having no coal for fuel. Scores of miles, large and small, are within a radius of 10 miles of this school, but the university authorities said they were unable to secure enough for heating the small building.

Hague New Film Censor.
Columbus, Nov. 15.—Maurice S. Hague, Columbus artist, was appointed by the industrial commission as a member of the state board of motion picture censors, and shortly afterward approved by the governor. He succeeds W. R. Wilson, Columbus. The appointment is for a three year term. As Mr. Hague is a Republican, the board now embraces two Republicans and a Democrat.

Democratic Politician Dead.
Salem, O., Nov. 15.—Albert Carlisle, 71, former mayor of this city, member of the Columbiana county liquor licensing board, died at his home here. He was well known in local and state

Democratic politics. Several times he was a presidential elector from this district. During the administration of President Cleveland Mr. Carlisle was given a special appointment as inspector of government furniture, which he held until 1892.

ENTIRE CIRCUS IS LEASED TO MAKE GOLDWYN PICTURE

Race, Fire, Parade and Panic, Features of "Polly of the Circus."

"Polly of the Circus" starring Mae Marsh, the famous little heroine of "The Birth of a Nation" and "Intolerance," with which the Goldwyn Picture Corporation makes its formal bow to the public, sets a new high water mark for elaborate and spectacular production. It is the biggest drama of its kind that has ever been attempted in motion pictures.

The pictureization of Margaret Mayo's famous play, which was such a big stage success in both America and Europe, is the final accomplishment of a stupendous undertaking which required not only a staff of specialists and artists, but also the population and the equipment of a complete circus to produce.

Some idea of the magnitude of the undertaking is gained by the time and effort put into the production. It took eleven weeks to photograph the scenes that make up "Polly of the Circus" after several months of preparation before the camera came into play. In addition to the members of the cast, more than five hundred per-

sons were used as "extras" to carry out the effect.

In order to create a true atmosphere of circus life, it was necessary to build a city occupying two square blocks, which served only for this picture. But, four New Jersey towns that are very much on the man also figure in the picture. Hoboken furnished the race track, where Polly wins a spirited race. Through the streets of Englewood passed the circus parade in all its gaudy raiment, and Kirtville is the scene of the early morning arrival of the circus, so dear to the heart of every boy and where is also shown the departure at night. Later the big top was pitched at Fort Lee, where the Goldwyn studios are located, and a regular circus performance given before the camera.

All through "Polly of the Circus" runs the thread of a romantic and at times pathetic story of the little orphaned circus girl, but it is punctuated with seven big spectacles, which can be catalogued as follows:

The race track, with its grandstands filled with people, where a horse race is run over a mile track, with Polly riding the winner.

The parade of the circus through the streets, as complete as Barnum and Bailey would have it, with a callopho, bands of music, ornamented wagons, lions, tigers and all the rest of the menagerie, and horses, camels and elephants.

The arrival of the circus in the morning the erection of the big top, and at night the tearing down of the show and its departure.

The performance under the big top, realistic with clowns and aerial performers.

A midway, with five thousand per-

sons surging among the freaks of the show.

A village which was built to surround the circus, and which occupies two city blocks.

Finally, a photo-illustration of the fire and panic under the big top showing the escape of wild animals among the panic-stricken spectators, which leads up to the climax of the story.

WOMEN ORGANIZE FOR CAMP WORK

By Associated Press Dispatch.

Columbus, O., November 15.—Ohio women have undertaken another big war task. At a luncheon here twenty-eight women from all parts of the state met to organize the Ohio Women's Auxiliary to Camp Sherman.

The purpose of the organization is to finance and operate Home Accommodations for relatives and friends of the officers and enlisted men at Camp Sherman, Chillicothe, Ohio.

PIMPPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the success of a substitute for calomel; there's never any sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cured with a dark brown taste, a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or sleepless face. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color. Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15¢ and 25¢ per box. All druggists.

DRAFT RULES MADE PLAIN BY CROWDER

(By American Press)

Washington, Nov. 15.—Provost Marshal General Crowder's questionnaire, which every registered man must fill out and file, officially announces the five classes into which 9,000,000 men registered for military duty, and those who are registered hereafter, are divided and the order in which they will be called for service.

Contrary to some published reports, it does not exempt married men as a class, but it does place married men with dependent wives and children far down on the list of liables. In fact, the questionnaire indicates that only men of the first class will be called to the colors except in the gravest emergency.

Class one includes single men without dependent relatives; married men, with or without children, or father of motherless children, who has habitually failed to support his family; married man, with or without children, or father of motherless children; man not usefully engaged, family supported by income independent of his labor; unskilled farm laborer, unskilled industrial laborer; registrant by or in respect of whom no deferred classification is claimed or made; registrant who fails to submit questionnaire and in respect of whom no deferred classification is claimed or made.

Best available estimates indicate that the first of the five classes into which all draft registrants are to be divided will contain more than 2,000,000 men subject for duty with the colors before any man in any other class will be called up.

It is regarded as practically certain that congress will take up the question of extending the draft law to cover men who have attained the age of 21 since it was enacted. Should that be done and provision made for the registration thereafter of every man as he reached that age, it is probable that perhaps 600,000 would be added to class one automatically by next March. In that event no present plans for the army would reach the men in class two.

Officials have already considered the possibility that congress will decide to take in these additional young men. Some fair system by which they may be registered, classified and assigned to places will be devised. New regulations to be published shortly probably will set a way in which this can be done.

New regulations governing passports for registered men become effective Nov. 20. After that date the nearest local board may issue passport permits without reference to district boards, as is now required. Passports are not necessary to enter Canada.

WILL GUARD PLANTS FEAR FIRE BUGS

(By American Press)

Cleveland, Nov. 15.—Several attempts have been made within the past week to destroy large Cleveland concerns which manufacture or store clothing and foodstuffs. More than 100 such concerns in the city and vicinity have been warned by the department of justice that such attempts may be expected in connection with carefully planned plots of German and I. W. W. origin. They have been asked to have their plants carefully guarded and to exercise great care to hire only loyal employees. Federal operatives here already have arrested four men suspected of having connection with the activities of enemy agents. Other arrests are expected. The enemy activities in Cleveland are linked up by the federal officials with the recent fires in the Kansas City stock yards and at the Baltimore docks.

HERALD BOYS TO BLOW WHISTLES

With the advent of darkness falling early once more, all Herald boys have been supplied with whistles, and from now until the hours of daylight permit delivery of The Herald before darkness, the boys will blow their whistles frequently to notify subscribers in the city of the delivery of The Herald.

Listen for the shrill notes of the Herald boy's whistle.

MUST BELIEVE IT

When Well-Known Washington C. H. People Tell It So Plainly.

When public endorsement is made by a representative citizen of Washington C. H., the proof is positive. You must believe it. Read this testimony. Every sufferer of kidney backache, every man, woman or child with kidney trouble will do well to read the following:

Wm. Devany, blacksmith, 270 Temple St., Washington C. H., says: "Whenever I have had any need of a kidney medicine, I have used Doan's Kidney Pills and I know they are just as represented. About a year ago, I was troubled with an ache across my kidneys which caused me no little misery. I used Doan's Kidney Pills and in a short time, I was rid of the attack. I have had very little reason to complain of my kidneys since." Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills, the same that Mr. Devany had. FAVORS OHIO PLANT

(By American Press)

Columbus, Nov. 15.—The Ohio plan for vocational training in the public schools is the best submitted by any state. So federal officials told T. Howard Winters of the state department of public instruction, and Dean Alfred Vivian of the college of agriculture of the Ohio State university, who took the plan to Washington for approval this week. The federal officials said they wanted the Ohio plan, with minor changes, to be a model for other states. The state board of education will disburse funds received from the federal government for expansion of vocational training in the public schools.
